

I am writing regarding the use of LPFM stations. My family and I listen to K-LOVE a Christian radio station in our area. We have recently been informed that K-LOVE could be replaced by an LPFM and that we may not be able to receive their broadcasts any longer. Please reconsider this decision. There is so much junk on the radio anymore that my wife and I don't want our children listening to. We recently took a trip to Chicago and after losing our K-LOVE station simply had to turn off the radio because there was nothing else suitable to listen to. Both of our kids made the comment that they sure are glad we have a good station to listen to at home. Please don't take this station away from our family and our community. So many people in our area were thrilled when K-LOVE came to town. Because we live so far from Indianapolis, we can barely pick up any of their radio stations, but K-LOVE comes in loud and clear. Please reconsider your plans to do away with stations like K-LOVE and help keep the radio waves something that our kids can listen to.
